It may happen that in one and the same person is represented two or even all three of these interests, which only tends to prove that the true welfare of any is dependent upon the rest, and that their stable equilibrium is not attained without equal consideration of all these forces or interests. The first diagram shows a triangle of forces for stable equilibrium. By subtending to the same figure another triangle (see diagram No. 2, page x), we can appreciate the essential features of accounts and finance generally; that is, the necessary distinction between its two parts of capital and revenue.
