

Carnegie Institution of Washington Publication Volume 278

By Carnegie Institution of Washington

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1919 Excerpt: .been so blind. Thus, for example, the type jaunty having been recognized, suddenly in certain other stocks wings that have been passed over as imperfectly unfolded or only vaguely recognized as queer are seen to be sharply characterized jaunties. Again, of the 20 or so mutations previously found it had happened that only 2, rudimentary and truncate, bore much resemblance to each other, and we were then far less critical than now as to whether a new jaunty-like mutation was actually jaunty or only a mimic. To the genus jaunty there are now at least four well recognized species --jaunty, jaunty X (sex-linked), curled, and California curled. A similar mutating period for purple resulted in isolation of maroon as a distinct but very close mimic and the mutating period of arc brought forth arch, bow, arc2, depressed, and even other types distinct in inheritance though similar...
