Alphascript Publishing. Taschenbuch. Book Condition: Neu. Neuware - The automotive industry crisis of 2008 2010 was a part of a global financial downturn. The crises affected European and Asian automobile manufacturers, but it was primarily felt in the American automobile manufacturing industry. The downturn also affected Canada by virtue of the Automotive Products Trade Agreement. The automotive industry was weakened by a substantial increase in the prices of automotive fuels linked to the 2003-2008 energy crisis which discouraged purchases of sport utility vehicles (SUVs) and pickup trucks which have low fuel economy. The popularity and relatively high profit margins of these vehicles had encouraged the American 'Big Three' automakers, General Motors, Ford, and Chrysler to make them their primary focus. With few fuel-efficient models to offer to consumers, sales began to slide. By 2008, the situation had turned critical as the credit crunch placed pressure on the prices of raw materials. 132 pp. Englisch.
