Brand New Book ***** Print on Demand *****.Excerpt from Wine-Making in Hot Climates: Department of Agriculture; Viticultural Station, Rutherglen, Victoria In presenting this translation of L Industrie Vinicole Meridionale by Professor L. Roos, to Australian winemakers, the sole aim of the translators has been to render a thoroughly modern work on wine-making available, of a type of which the necessity has been obvious, and frequently commented on for some years. The selection of the present work for translation was guided principally by the fact that the climate, and conditions of wine-making, in the South of France, for which the book was expressly written, are practically identical with those of Australia. The new methods and innovations in vinification adopted there (as also in California) should be applied here without hesitation, if we are to keep abreast of recent advances, or rather, of our competitors in the export wine trade with Great Britain, on which the future expansion and success of our viticultural industry largely depends.
