Encounter Books,USA, United States, 2013. Paperback. Book Condition: New. 173 x 117 mm. Language: English . Brand New Book. Many cities have struggled with the decline of key industries, from Philadelphia s shipyards to New York s textile industry, but Detroit--which is now in bankruptcy--is both a victim of the decline of the Michigan automobile industry and a cause of it. A city with a history of civil disorder--it is the only American city occupied on three separate occasions by federal troops--its poisonous blend of race-based politics and union domination has left it impoverished and diminished. Once the fourth-largest city in the country, it is today smaller than Fort Worth. Once the nation s most prosperous city, it is today the poorest. Even in its reduced state, it is the largest U.S. city ever to file for bankruptcy--and yet its city payroll maintains twice as many government employees per resident as does San Jose. More terrifying is the fact that the imbalance between public-sector consumption and private-sector production that helped make Detroit what it is today is by no means limited to the Motor City--in fact, there are four large U.S. cities that are in arguably worse shape. Detroit is not just a case study, but a portent.
