Dimensions: 9.5in. x 7.4in. x 0.3in.Excerpt: . . . the agglutinative method Then the language is agglutinative. As such, it may be prefixing or suffixing, analytic, synthetic, or polysynthetic. To return to inflection. An inflective language like Latin or Greek uses the method of fusion, and this fusion has an inner psychological as well as an outer phonetic meaning. But it is not enough that the fusion operate merely in the sphere of derivational concepts (group II), 108 it must involve the syntactic relations, which may either be expressed in unalloyed form (group IV) or, as in Latin and Greek, as concrete relational concepts (group III). 109 As far as Latin and Greek are concerned, their inflection consists essentially of the fusing of elements that express logically impure relational concepts with radical elements and with elements expressing derivational concepts. Both fusion as a general method and the expression of relational concepts in the word are necessary to the notion of inflection. But to have thus defined inflection is to doubt the value of the term as descriptive of a major class. Why emphasize both a technique...
